SUMMARY

Product Manager with a decade of experience in Software Development, specializing in EdTech and subscription-based products. Strong foundation in Agile teamwork, cross-functional collaboration, and a creative problem-solving approach. Ready to leverage technical expertise and newfound Product Management knowledge for user-centric innovation and success.

SKILLS

PM: User Research | Agile Methodologies | Project Management | Cross-functional Collaboration | Prioritisation
Technical: SQL | Python | REST API | Coding & Technical Problem Solving | Data Analysis | HTML | CSS | Javascript
Languages: English | Spanish | Romanian

PROFESSIONAL EXPERIENCE

Full Stack Software Developer, Babbel | May 2019 – Mar 2022

Berlin, Germany & Remote

- Collaborated in a cross-functional team directly with Marketing and Customer Support teams to deliver features for the Language Travel platform.
- Participated in Agile ceremonies and Brainstorming & Ideation sessions.
- Presented product updates at company-wide updates meetings and attended User Interviews for our Online Language Learning platform.

Full Stack Software Developer, DCMN | Nov 2016 – Feb 2018

Berlin, Germany & Remote

- Collaborated in an Agile environment with two engineering teams to deliver features on 3 different products, with vastly different technologies and methodologies.
- Delivered interactive ads compatibility feature for the DSP platform.
- Headed some of the Agile ceremonies and worked very closely with the Product Managers.

Junior Full Stack Software Developer, Learning Data | Jan 2013 – Jul 2016

Madrid, Spain/Dublin, Ireland & Remote

- Regularly collaborated with users (teachers) and provided them with Technical Support.
- Maintained and prioritised product features for the Teacher and Parent Portal platforms.
- Successfully migrated and maintained the infrastructure from the barebone servers to Azure.
- Designed and built a REST API for the Teacher Portal using the Flask framework (Python) for integration with other systems, which decreased the time for manual export by 50%.
- Delivered Ansible scripts for distributed deployment, which increased the speed of the deployment by 80%.

EDUCATION

Product Management Program, CareerFoundry (Remote | Sep 2023 – Present)

Telecommunications Technology/Technician, La Inmaculada PP Escolapios (Madrid, Spain | 2010 – 2012)

- Successfully finished Summer Internship at Wireless Mundi, where tasks included: Customer Support, Bugs and Incidents reports, Programming, Translation, Documentation.

VOLUNTEERING

Programmer Mentor, Coder Dojo SWICN (Dublin, Ireland | 2015 – 2016)

- Tasks included teaching children, aged 7 to 15, programming in HTML, CSS, Javascript, and Scratch, organising exercises and lessons, as well as interacting one on one and giving feedback.
